

### MEADOWS SHOWHOUSE: THE REVEAL!

Now complete, we are pleased to present our state-of-the-art service center, white glove warehouse, and architectural interiors showroom. Home to Meadows Service **Group**, Meadows Showhouse is conveniently located in Manhattan's Hell's Kitchen with direct access to the West Side Highway.

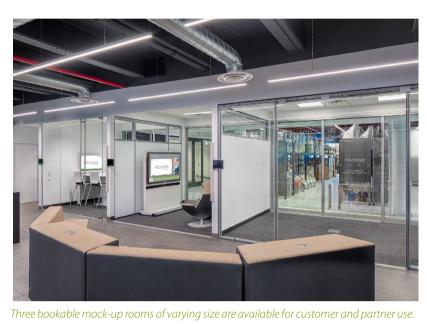

Want to see it in person? Email us to schedule a visit! info@meadowsservicegroup.com

An on-site customer care and dispatch center allows for expedited response to service reauests.

The working showroom features architectural product demonstrations, including moveable walls, raised access flooring, and sound masking.

**COURTNEY MOORE** Senior Designer

"Climb multi-level seating by Nevins is my favorite product in our Showhouse. Climb is a fun, multi-use product designed by David Murphy. It creates a space where you can lounge during a break, collaborate with laptops, or sit throughout a presentation or mockup viewing. Climb seating is available in six different shapes and a variety of fabric pairing options. Power options for traditional outlets and USB access are also available. In our Showhouse, we've created a curved setup, but Climb can also be designed as a straight run, "L" shape, or "S" shape. Nevins also offers poof seating that pairs nicely with Climb."

### SNEAK PEEK: MEADOWS @ NEOCON Attending NeoCon? Don't miss us at Booth #7-4133!

management application, Meadows Workflow™, for public license at NeoCon 2018. Leveraging 50 years of experience, we built this game-changing app to streamline our internal project management processes from inception through close-out. It worked, and now we want to share it. Meadows Workflow™ was specifically developed for use by project managers, service technicians, and sales representatives while in the field, and their support team back in the office. Its integrated CRM and cloud storage platform make it an essential tool for anyone charged with contributing to the timely and successful completion of a project, no matter their role. Projects stay on track, delays are minimized, and delivery and installation is seamless. In the end, project closeout and final payments are expedited thanks to detailed documentation and transparency. Project progress tracking. Seamless punch list completion.

We are pleased to announce that Meadows Technology Group, a wholly-owned subsidiary of Meadows Office Interiors, will be launching our proprietary project

- Expedited change orders. Access project files – anywhere.
- Notes & checklists on-the-go. Advanced task management.
- Facilitate Day 2 requests. Capture photos and video.

### to life at the Meadows Showhouse, where there are three designated mock-up rooms of varying size. Book a room through our website – it's easy!

Recently becoming the very first Junior Project Manager for Meadows Service Group has been Kyle's most notable career accomplishment thus far. He's grateful to have had the chance to grow with the service division, which began as a three-person operation! Working alongside the rest of the service team is one of the best parts of his job. "The Meadows Service Group Showhouse is smaller than the Meadows Office Interiors Showroom, so we are fewer people working in a closer space, and there's a very family-like vibe here" working in a closer space, and there's a very family-like vibe here." Right now, Kyle is looking forward to his evening commute home during the warmer months when he can catch the ferry and take in the view from the top deck. When he's not at the Showhouse, you can catch him working on his headstand at his local hot yoga studio or rockin'

out at a concert. (He's a self-proclaimed Deadhead, and, if given the chance, he'd most like to go to Terrapin Station, a fictional place in a Grateful Dead song.) A New Jersey native and resident, Kyle loves spending time with his family, fiancée, and their Shih Tzu Bellá.

Would you rather live without the internet or without air conditioning and heat? I think I could actually have fun without the internet.

Recently, we sat down with Kyle and played "Would You Rather." Here's what we learned:

Be able to teleport or read minds? Definitely teleport!

Would you rather have a completely automated home or a self-driving car? I like to drive, so I'd have to choose an automated home. It would be cool to go home and just press a button to make everything work for you.

Would you rather live on the beach or in a cabin in the woods? I'd live in a cabin by the beach, haha. I can't choose just one, I love them both!

# Everybody Loves Kyle

We asked Kyle's colleagues to tell us their favorite thing

about working with him.

"Kyle is always willing to translate his knowledge and expertise to continue to improve processes. While staying engaged and dedicated, he is an outstanding team

player that is ready to dive straight in to ensure the success of our service." Troy Jenkins, Customer Service & Support Manager

"In the time that I have worked with Kyle, he has displayed loyalty and dedication in position. He gets along with everyor and provides leadership in the field. Kyle is hardworking and detail-oriented. He is a

pleasure to work with." - John Willix, Warehouse Manager
