framery

Happiness creates success. And we create happiness.

According to the University of Sydney, over 50 % of office workers around the world see it as a challenge to concentrate in open-plan offices. That's more than one in two people that find constant interruptions, hurry and noise leading to decreased productivity and even unhappiness.

Framery's mission is to change this.

Our pods are a perfect place for confidential meetings, brainstorming sessions and important one-on-one discussions without disturbing the whole office – or the office being a disruption. Companies like Microsoft, Puma, Cloudera and Vodafone are using our innovative and award-winning pods to unleash their employees' full potential and improve their working habits.

Now it's your turn.

Framery

Simple yet significant. Framery O is perfect for making important calls or participating in video conferences. Have your discussions in privacy without disturbing your colleagues. Framery O delivers an echo-free and comfortable working environment. The installation is quick and the product is ready to be used the same day the product is delivered.

Exterior

At Framery we take our job, and happiness, seriously. We create premium acoustic solutions that are recognized for uncompromising attention to detail and quality. Framery O is a perfect example. The wide range of exterior color and fine-detail options allow you to customize the O pod according to your company's specific needs.

Product details

Framery O is a result of several years' worth of user research and countless hours of technical, hands-on product design. The user experience has been perfected with clear simple lines and carefully chosen premium materials, both inside and out. The ergonomic comfort has been further ensured with the new Tovi stool that allows you to easily adjust your working position.

Framery's design and engineering teams have gone to extraordinary lengths to make sure that air flows smoothly within the pod to increase the sense of breathability and enjoyment. Moreover, both the LED lighting and electric air circulation system function automatically when you enter the pod, thanks to an integrated occupancy sensor. Power socket is integrated on the table.

Video Conference Ready

Step into the soundproof world of video conferencing. The tilting screen bracket of O Video Conference Ready enables the attachment of various kinds of screens on the wall of the pod. You can fix a display or an all-in-one computer onto the screen bracket. The LED lighting surrounding the screen provides optimal lighting for video conferences. The control panel enables you to adjust the lighting and airflow.

FEATURES

DIMMABLE CEILING- AND SCREEN LIGHT

CONTROL PANEL

The control panel enables you to adjust:

-  The brightness of the new improved ceiling light
-  The light surrounding the screen
-  The capacity of the airflow

SCREEN BRACKET

Screen specifications: Maximum size 24" with flat VESA 100 x 100 mounting surface. Screen not included.

WIDE TABLE

White table with cable feed from monitor. Power socket + USB (Pixel TUF)

Measurements

Our goal is not just to eliminate noise from workplaces, we want to tackle everything that makes people unhappy – and change it. That's why there are no coincidences in our design of Framery O, only carefully calculated solutions in every detail.

*Power cord can also be installed through the roof.

Minimum recommended space for the air to circulate is 5 cm / 1.9" on the sides and 15 cm / 5.9" above the pod.

Framery

Your teamwork is about to get better. Framery Q pod is a silent multi-functional space designed for up to four people. It is ideal for co-working tasks like small meetings or interviews – without disturbances. It was created to improve communication among team members, driving better results and increased happiness. Framery Q is easy to assemble and relocate when necessary. It comes with several model options for you to choose from.

Exterior

One size never fits all. Framery Q can be customized to best represent the look and feel of your team to ensure full enjoyment. The large amount of different exterior colors and frame options make sure that it does not only suit your company's needs, but your professional style as well.

Product details

The carefully designed details are what make Framery Q the best soundproof multi-person pod ever created. Building your perfect workspace has never been this simple. With the rich model options available you can create a space that works for you. Create, innovate, recharge or collaborate – the possibilities are endless. Framery Q is an evolution in the way we work.

Framery Q has evolved to better accommodate users' needs. The smart air ventilation flows at 66 l/s, which is ten percent more than in any previous versions. Automatically functioning electric air circulation system and LED lighting are user experience at its best, operated by an integrated motion sensor. Several fine features, such as two stylistic coat hangers, guarantee a silent working space like no other.

Measurements

Spacious, yet beautiful. Framery Q is designed to fit one to four people without sacrificing the compact size or usability of the pod. Every detail has been thoroughly measured, resulting in the best silent multipurpose workspace available.

WEIGHT

700 KG / 1 543 LB

*Power cord can be installed from either side of the floor or from the roof.

Minimum recommended space for the air to circulate is 5 cm / 1.9" on the sides and 15 cm / 5.9" above the pod.

Framery

2Q

Double your efficiency. Framery's new model, 2Q is designed for 4-6 people. It's the best place to co-create, brainstorm and have great meetings. Framery's superior sound insulation system guarantees that your meetings won't disturb the office – and the office noise won't disturb you. 2Q comes with two different layouts. A conference table with two height options is optimal for laptop use or workshopping. You can also choose this meetingpod without any furniture, leaving you the option to furnish it however you wish. A low doorstep makes 2Q wheelchair accessible.

Exterior

Exemplify your team's personality. Fully customize the look and feel of Framery 2Q and watch the motivation and productivity soar.

MORE ABOUT COLORS

Standard Framery NapQ comes with three different pillow sizes and colors. The small featured pillow comes with Remix2 183 (black), the medium with Remix2 123 (light gray), and the large with Canvas 154 (Maggie gray) upholstery. Like all of our upholsteries, the pillow colors can be customized according to the available fabric options shown on the page. NapQ blanket comes in one standard color option only – as seen in the pictures.

General product information

Framery Quality Management System meets ISO 9001 requirements. CE marking is a manufacturer's declaration that a product meets the requirements of relevant EC directives. The EC directives for Framery O, Q and 2Q pods are: Low Voltage Directive (LVD) 2006/95/EC, Electromagnetic Compatibility Directive (EMC) 2004/108/EC, Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU and Ecodesign Directive 2009/125/EC.

FIRE SAFETY

No flammable materials are used in Framery products. The fire safety of all surface materials, upholstery and acoustics materials of the products is tested and classified by either national or international standards. Framery O, Q and 2Q exterior sheet metal panels and sound-control laminated glass are of such quality that they may halt heat and fire. Outer frames with laminated surface are IMO certified (French Maritime Authority). Used acoustic foam meets B-s1, d0, EN 13501-1, acoustic felt EN 13501-1 and floor carpet Cfl-s1, EN 13501-1 requirements.

Molded foam used in Tovi stool seat meets CA TB 117:2013 requirements. Fabric meets the performance requirements of BS EN 1021-1 and 1 021-2. According to Inspecta, an EU accredited inspection body, there is no need for installing sprinklers in Framery O, Q or 2Q.

SEISMIC SAFETY

In Framery's case, seismic requirements generally refer to the products' ability to stay upright in case of an earthquake. If needed, the products can be fixed to the floor with anchor bolts using the leveling glide screw holes in the floor modules. Instructions are available upon request.

AIR QUALITY AND FLOW

The indoor air quality of all products is tested by an accredited testing laboratory, VTT Technical Research Centre of Finland, and is found to be well within the limits of M1 emission classification. Total air flow in Framery O pod is 21,5 l/s. Total air flow in the 2018 updated Framery Q pod is 66 l/s. Total air flow in the Framery 2Q pod 121 l/s.

ECO-EFFICIENCY

Framery products are mainly made of birch plywood. All plywood is produced either in Finland or neighboring countries, while all suppliers are required to have FSC or PEFC certification. A

majority of the materials used are recycled or recyclable. The acoustic foam and the interior felt used in the products are up to 60–70 % recycled. A significant part of all steel, aluminum and glass is recycled in their manufacturing processes. Framery O, Q and 2Q are highly energy-efficient. When the products are in use, the standard power consumption of Framery O is 4,82 W while Framery Q uses just under 12 W.

SERVICE

Framery wear parts (including gas lifts, leveling glides, LED lighting, electric parts, hinges and locks) are warranted. Rigorous maintenance will expand the lifespan of a single pod unit substantially. Diligent maintenance includes regular service calls for the unit (tightening screws, adjusting hinges, etc.) and replacement of wear parts. To find out more about product features and specifics, please visit: www.frameryacoustics.com
