Tyde Meeting

The Tyde table family also includes meeting tables at a standard sitting height as well as height-adjustable versions. Their design is very similar to the workstations, offering compatible furnishings for both workspaces and meeting areas. Like the Tyde workstations, the meeting tables are

equipped with a polyester fleece cable tray, which dampens the noise of the height-adjustment motor while also contributing to the overall sound absorption in open office spaces.

Thanks to the simple height adjustment mechanism, meetings can be spontaneously held while seated or standing, with stand-up meetings being particularly suited to shorter discussions. Standing up helps promote concentration and good posture by preventing participants from passively settling into their chairs. Tyde meeting tables are available in various sizes for up to ten people.

Ronan & Erwan Bouroullec

The brothers Ronan and Erwan Bouroullec live and work in Paris. Their oeuvre extends from small everyday objects up to architectural projects. They have worked with Vitra since 2000 and have contributed numerous designs to both the office and home collections.
